

CORLACKY HILL WIND FARM

TURBINE DELIVERIES – MARCH 2025

WHAT: We are preparing to deliver turbine components from the Port of Larne through to Corlacky Hill Wind Farm site (approx. 3 hours in total). This will be via Maghera town with convoys of 3 components plus escorts. We expect this to take around 15 mins to get all the way through the town.

WHEN: 14 April 2025 for approximately 8 weeks. We will be driving through town at around 6-6:30am on weekdays and 10-10:30am on weekends and public holidays (the latter of which will include police escorts.)

WHERE: We will be taking the below route through Maghera Town

Please note, exact delivery schedule will be subject to change dependent on various factors, such as weather & escort availability. There may be slight delays to journeys if you are travelling along the road behind the turbine components. We would like to apologise in advance for any inconvenience caused.
